About NBNGA

Can you believe that New Brunswick has only been enjoying the comforts and conveniences of natural gas for 3 years! As with everything new, it takes a group of committed and hard working people who want to bring about change and opportunity.

The recently formed New Brunswick Natural Gas Association is committed to the growth and viability of the Natural Gas Industry in New Brunswick. We are a group of utility workers, contractors, trades people, government workers, suppliers, gas marketers, business leaders, and most importantly visionaries.

On behalf of the NBNGA, I would like to invite you to join our group and help us promote the benefits of the Natural Gas Industry. Find out why so many Canadian households choose natural gas as their primary source of heat and start spreading the word about Natural Gas!

Sincerely,
Rod Mac Donald
President, NBNGA

NBNGA Mission Statement

Our mission is to establish a well-recognized and respected Natural Gas association in New Brunswick that will provide a forum to assist in the healthy growth of the natural gas industry.

Our members will work together to a common goal, providing a strong voice from industry to government and key stakeholders in providing a safe natural gas environment for our employees and customers.

We will continue to grow our membership and share our experience and knowledge to allow us to provide value and service to the public.

We will always make decisions with the best interest of the industry as a whole as our top priority and will ensure our members comply with association's code of conduct at all times.

Association Objectives

- Be a contact point for industry, government and the utility for the Natural Gas Industry
- Provide information and training for members and their employees
- Ensure all members are kept current with industry standards
- Continue to grow our membership and be recognized as the industry association in New Brunswick for Natural Gas
